Chapter 1: Introduction

- 1.1 The revised National Planning Policy Framework (NPPF) was published in July 2021¹ and requires local planning authorities to:

“identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old. The supply of specific deliverable sites should in addition include a buffer (moved forward from later in the plan period) of:

- a) *5% to ensure choice and competition in the market for land; or*
- b) *10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan², to account for any fluctuations in the market during that year; or*
- c) *20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply”³ [paragraph 74].*

- 1.2 The National Planning Practice Guidance, published July 2019, states that:

“Housing requirement figures identified in adopted strategic housing policies should be used for calculating the 5 year housing land supply figure where:

- *the plan was adopted in the last 5 years, or*
- *the strategic housing policies have been reviewed within the last 5 years and found not to need updating.*

In other circumstances the 5 year housing land supply will be measured against the area’s local housing need calculated using the standard method” [paragraph 005].

- 1.3 As Three Rivers’ Local Plan is over 5 years old and has not been reviewed, local housing need will be calculated using the standard method and the 5 year land supply will be calculated using this figure.

- 1.4 The NPPF considers plan policies out of date where the local planning authority cannot demonstrate a five year supply of deliverable housing sites (see footnote 8 relating to paragraph 11). It is therefore necessary to establish whether a five year supply can be demonstrated to provide a context for the consideration of planning applications.

¹ The NPPF was revised in July 2018 and updated in February 2019 and July 2021.

² Footnote 40, NPPF: For the purposes of paragraphs 74b and 75 a plan adopted between 1 May and 31 October will be considered ‘recently adopted’ until 31 October of the following year; and a plan adopted between 1 November and 30 April will be considered recently adopted until 31 October in the same year.

³ Footnote 41, NPPF: This will be measured against the Housing Delivery Test, where this indicates that delivery was below 85% of the housing requirement.

Chapter 2: Five Year Housing Target

- 2.1 The demonstration of a five year supply was previously a requirement of Planning Policy Statement 3: Housing, and initially covered the period 1 April 2007 to 31 March 2012, to be updated annually thereafter. The five year period is a forward look and this report covers the period 1 April 2022 to 31 March 2027.
- 2.2 The current Core Strategy (adopted in October 2011) sets a target of 4,500 dwellings 2001-2026, which is an average of 180 dwellings per year. As the Core Strategy is more than 5 years old and the strategic policies have not been reviewed this target is now out of date. The new housing figure is calculated using the standard method⁴ and currently equates to 633 dwellings per year.
- 2.3 The standard method calculates local housing need by identifying a minimum annual local housing need figure. The standard method is currently based on 2014-based household growth projections provided by the Office for National Statistics (ONS). The standard method calculates housing need in three steps.
- 1) The housing growth baseline is set using household growth projections published by the ONS. The baseline is over a consecutive 10 year period, from the current year. For Three Rivers this is 452 dwellings per year or 4,522 dwellings, from 2022 to 2032.
 - 2) The average projected household growth figure is then adjusted to take account of affordability. The 2021 affordability ratio in Three Rivers is 14.37. As the affordability ratio is above 4, the household growth rate is adjusted, as set out in National Planning Practice Guidance (NPPG). The adjustment factor for Three Rivers is 1.65. The baseline calculated in step 1 (452 dwellings per year) is subsequently multiplied by 1.65. The adjusted housing need is therefore 745 dwellings per year.
 - 3) NPPG states that a cap can be applied to limit the increase in the annual local housing need figure, depending on the status of the local planning authority's strategic policies. As Three Rivers' Local Plan is more than 5 years old, the cap is applicable and is set at 40% above the annual housing requirement figure of 452 (as established in step 1). For Three Rivers, this is 633 dwellings per year.

According to the standard method at present, the annual local housing need figure for Three Rivers is **633** dwellings per year.

- 2.4 A net gain of 4,300 dwellings has been delivered in Three Rivers in the period 2001/02-2021/22. In addition to C3 dwellings, the National Planning Practice Guidance, published June 2019, states that local planning authorities will need to count housing provided for older people, including residential institutions in Use Class C2, as part of their housing land supply⁵. Specifically, paragraph 16a states:

“How should plan-making authorities count specialist housing for older people against their housing requirement?”

⁴ NPPG, Paragraph 004, <https://www.gov.uk/guidance/housing-and-economic-development-needs-assessments>

⁵ NPPG, Paragraph 016a, <https://www.gov.uk/guidance/housing-for-older-and-disabled-people>

Plan-making authorities will need to count housing provided for older people against their housing requirement. For residential institutions, to establish the amount of accommodation released in the housing market, authorities should base calculations on the average number of adults living in households, using the published Census data.”

- 2.5 To take account of the NPPG, the housing land supply will take account of the historic delivery of C2 accommodation over the plan period and expected delivery over the next five years. A detailed list of older people’s accommodation that has been delivered in the plan period is shown in Table 1 below. 270 bedrooms in C2 use have so far been delivered over the plan period (1 April 2001-31 March 2026).
- 2.6 The Council considers a conversion ratio of 1.9:1 (1.9 bedrooms in C2 use ‘frees up’ 1 open market dwelling) to be an appropriate way of taking account of the guidance. When applied to the 270 bedrooms completed in C2 use, a further 142 dwellings have been provided over the plan period (see Table 1), bringing the total completions over the plan period up to 4,442 dwellings (see Table 2). The same approach will be used to ascertain the dwelling equivalent of sites with outstanding planning permission in C2 use.

Table 1: C2 Completions during the Plan Period

Application Number	Address	Number of units
99/1337/FUL	17 Rectory Road, Rickmansworth	3
00/0429/FUL	Tanners Wood Close, Abbots Langley	6

C2 Completions (net)	270 bedrooms: dwelling equivalent = 142						142
Total Completions over the Plan Period:							4,442

⁶ Resulting in a loss of units as a result of the care home’s change of use to pre-school nursery.

- 2.7 From the 2001/02 monitoring year, the housing target was based on the adopted Local Plan figure of 180 dwellings per year and from July 2018, the residual annual housing target has been based on the standard method. The total housing target for the first 20 years of the Plan period (from 2001/02 to 2020/21) is 4,820 homes. In accordance with the NPPG⁷, any previous under delivery of housing is addressed as part of the standard method; Step 2 of the standard method factors in past under-delivery as part of the affordability ratio, so there is no requirement to specifically address under-delivery separately when establishing the minimum local housing need figure. Therefore, no past under-supply should be added to the 'basic' five-year requirement. This is the approach taken in the appeal (at Woolpit - APP/W3520/W/18/3194926) where the Inspector stated (at paragraph 64): "No under supply/previous under delivery is taken into account when using the standard method. Therefore, no 'backlog' of unmet need should be taken into account when calculating the Council's housing land supply position."
- 2.8 The residual annual housing target for the remaining 5 years of the plan period is therefore 3,165 dwellings⁸ (over the period 2022/23-2026/27), giving an average of 633 dwellings per year.
- 2.9 The NPPF requires that an appropriate buffer is applied to the housing need figure. In accordance with paragraph 74 of the NPPF, an additional 20% buffer is required where there has been significant under delivery of housing over the previous three years⁹. When the 20% buffer is added, the five year housing requirement for the period 1 April 2022 to 31 March 2027 would therefore be **3,798 dwellings** which equates to **760 dwellings** per annum.

⁷ NPPG, Paragraph 031, <https://www.gov.uk/guidance/housing-supply-and-delivery>

⁸ 633 (local housing need figure) x 5 (years remaining in the plan period) = 3,165 dwellings

⁹ This is measured against the Housing Delivery Test, where this indicates that delivery was below 85% of the housing requirement. The Housing Delivery Test measurement for Three Rivers was 46% in 2021, 54% in 2020, 41% in 2019 and 67% in 2018. Therefore a buffer of 20% is required.

Chapter 3: Five Year Housing Supply

- 3.1 In order to meet the five year housing requirement, a supply of deliverable housing is required. The NPPF states that:

“To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
- b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.”* [Annex 2: Glossary]

- 3.2 In accordance with the definition of ‘deliverable’ in the NPPF, sites with outline or full planning permission for minor development and sites with detailed/full planning permission for both minor and major development have been considered deliverable unless there is clear evidence that schemes will not be implemented within five years. All sites which are allocated for housing in the Site Allocations Local Development Document (LDD) and sites which have outline planning permission for major development have only been considered deliverable where there is clear evidence that housing completions will begin on site within five years. Appendix 1 of this report lists the developments that the Council considers to be deliverable.
- 3.3 Paragraph 71 of the NPPF also allows Local Planning Authorities to make an allowance for windfall sites in the first five years of the housing supply, provided compelling evidence is available that such sites will continue to provide a reliable source of supply. Previous delivery has shown that 39 dwellings per annum are completed on small windfall sites on previously developed land. The Council considers inclusion of a windfall allowance serves to portray a more accurate reflection of development trends within the District.
- 3.4 The Site Allocations LDD was adopted by the Council on 25 November 2014. The document allocates specific sites for housing, employment, education and recreation to achieve the requirements as set out in the Core Strategy. Sites for housing have been included in the five year housing land supply where there is full permission for major development, outline or full permission for minor development or where there is clear evidence that housing completions will begin within five years. A full list of these sites and sites that benefit from planning permission are included in Appendices 1 and 2 of this report.
- 3.5 The five year housing supply for the District consists of the following:

Table 3: Three Rivers Housing Supply

	22/23	23/24	24/25	25/26	26/27
Sites Not Yet Started	45	126	178	102	60
Sites Under Construction	97	251	172	0	0
Outstanding C2 Developments	0	27	51	0	0
Windfall Allowance	39	39	39	39	39
Sites allocated in the SALDD	0	10	42	56	10
Sub Total	181	453	482	197	109
Total	1,422				

3.6 At **1,422 dwellings** the Council can show **1.9 years** supply of deliverable housing.¹⁰

3.7 Table 4 below shows how the five year housing land supply requirement and supply figure is calculated.

Table 4: Summary of Five Year Housing Requirement & Supply Calculation

	Source	Dwellings	Notes
A	Requirement for next five years	3,165	Standard method - $630 \times 5 = 3,165$
B	Housing completions (net) over plan period (2001/02 to 2021/22)	4,300	As set out in Table 2
C	Plus residual shortfall	0	Not required as standard method is used to calculate five-year requirement
D	Plus 20% buffer	126.6	20% of 633 = 126.6
E	<i>Total five year requirement</i>	<i>3,798</i>	<i>$3,150 + (126.6 \times 5)$</i>
F	<i>Annual requirement</i>	<i>760</i>	<i>$3,798 / 5$</i>
G	Total deliverable dwellings	1,422	As set out in Table 3
H	Deliverable housing supply	1.9 years	$1,422 / 760$

¹⁰ This figure has been calculated in the following way:

- Target for the remaining 5 years of the Plan period based on Local Housing Need calculated through the Standard Method = 3,165 (based on annual need of 633 dwellings).
- Outstanding Plan provision (3,165 homes) divided by the number of Plan years remaining (5) = the residual annual housing provision (633) (760 when 20% buffer is added).
- Outstanding planning permissions, dwellings under construction, sites allocated for development in the Site Allocation Local Development Document plus windfall allowance at 1 April 2022 (total = 1,422) divided by the residual annual target with a 20% buffer (760 homes) = 1.9 Years.
